Management's Discussion and Analysis of Financial Condition and Results of Operations

(dollars in thousands)

The following commentary reviews the financial condition and results of the consolidated operations of Valley Farm Credit ACA, Valley Farm Credit, FLCA and Valley Farm Credit, PCA (Association) for the period ended September 30, 2005. These comments should be read in conjunction with the accompanying consolidated financial statements, notes to the consolidated financial statements and the 2004 Annual Report of the Association.

LOAN PORTFOLIO

The Association provides funds to farmers, rural homeowners, and farm-related businesses for financing of short and intermediate-term loans and long-term real estate mortgage loans. The Association's loan portfolio is diversified over a range of agricultural commodities in our region, including livestock, poultry, beef, orchards, dairy and rural home loans. Those major farm commodities totaled approximately \$124,975 or 67.56% of the loan volume as of September 30, 2005. Farm size varies and many of the borrowers in the region have diversified farming operations. This factor, along with the numerous opportunities for non-farm income in the area, somewhat diminishes the level of dependency on a given commodity.

The gross loan volume of the Association as of September 30, 2005 was \$178,540, an increase of \$6,772 as compared to \$171,768 at December 31, 2004. Net loans outstanding at September 30, 2005 were \$177,712 as compared to \$170,940 at December 31, 2004. Net loans accounted for 93.23 percent of total assets at September 30, 2005 as compared to 93.79 percent of total assets at December 31, 2004.

The increase in gross and net loan volume during the reporting period is attributed primarily to new loans to several different sectors of the Association's agricultural portfolio, new loans to the residential portion of the portfolio, and participation loans purchased.

There is an inherent risk in the extension of any type of credit. Portfolio credit quality continues to be maintained at an acceptable level, and credit administration remains satisfactory. Nonaccrual loans were \$0 at September 30, 2005 and December 31, 2004. Association management maintains an allowance for loan losses in an amount sufficient to absorb possible losses inherent in the loan portfolio at the balance sheet date based on current conditions. The allowance for loan losses was \$828 at September 30, 2005 and at December 31, 2004, and was considered by management to be adequate.

RESULTS OF OPERATIONS

For the three months ended September 30, 2005

Net income for the three months ended September 30, 2005, totaled \$409, as compared to \$407 for the same period in 2004. Net interest income increased \$133 for the three months ended September 30, 2005 as compared to the same period in 2004.

At September 30, 2005 interest income on loans increased \$539 as compared to the same period in 2004. Nonaccrual income was \$0 for the three months ended September 30, 2005 and for the same period in 2004. Interest expense increased \$406 for the three months ended September 30, 2005 as compared to the comparable period of 2004. Noninterest income for the three months ended September 30, 2005 totaled \$821 as compared to \$596 for the same period of 2004, an increase of \$225. Noninterest expense for the three months ended September 30, 2005 increased \$356 compared to the same period of 2004. There was no provision (benefit) for income taxes at September 30, 2005 or the same period in 2004.

For the nine months ended September 30, 2005

Net income for the nine months ended September 30, 2005, totaled \$1,638, as compared to \$969 for the same period in 2004. Net interest income increased \$366 for the nine months ended September 30, 2005 as compared to the same period in 2004.

At September 30, 2005 interest income on loans increased \$1,392 as compared to the same period in 2004. Nonaccrual income was \$0 for the nine months ended September 30, 2005 and for the same period in 2004. Interest expense increased \$1,026 for the nine months ended September 30, 2005 as compared to the comparable period of 2004. Noninterest income for the nine months ended September 30, 2005 totaled \$2,702 as compared to \$1,719 for the same period of 2004, an increase of \$983. Total noninterest income includes the gain on sale of assets in the amount of \$507 during the nine months ended September 30, 2005, which is related to the sale of property located in Martinsburg, WV. Noninterest expense for the nine months ended September 30, 2005 increased \$680 compared to the same period of 2004. The increase during the reporting period is mostly attributed to additional staffing and increased advertising expenses. There was no provision (benefit) for income taxes at September 30, 2005 or the same period in 2004.

FUNDING SOURCES

The principal source of funds for the Association is the borrowing relationship established with the AgFirst Farm Credit Bank (the Bank) through a General Financing Agreement. The General Financing Agreement utilizes the Association's credit and fiscal performance as criteria for establishing a line of credit on which the Association may draw funds. The funds are advanced by the Bank to the Association in the form of notes payable. The notes payable are segmented into variable rate and fixed rate sections. The variable rate note is utilized by the Association to fund variable rate loan advances and operating funds requirements. The fixed rate note is used specifically to fund fixed rate loan advances made by the Association. The total notes payable to the Bank at September 30, 2005 was \$164,029 as compared to \$157,765 at December 31, 2004. The increase during the period is primarily attributed to an increase in loan volume and additional contributions to the Districtwide defined benefit retirement plan.

CAPITAL RESOURCES

Total members' equity at September 30, 2005 increased to \$22,317 from the December 31, 2004 total of \$21,197. The rise in members' equity is attributed to the increase in retained earnings in addition to the increase in capital stock and participation certificates.

Total capital stock and participation certificates were \$3,933 on September 30, 2005 compared to \$3,924 on December 31, 2004. This increase is attributed to an excess of stock purchases above the normal retirement of stock on loans liquidated in the normal course of business.

Farm Credit Administration (FCA) regulations require all Farm Credit institutions to maintain minimum permanent capital, total surplus and core surplus ratios. These ratios are calculated by dividing the Association's permanent capital, total surplus and core surplus as defined in FCA regulations, by a risk-adjusted asset base. As of September 30, 2005, the Association's total surplus ratio and core surplus ratio were 10.28 percent and 9.19 percent, respectively, and the permanent capital ratio was 12.84 percent. All three ratios were well above the minimum regulatory ratios of 7.00 percent for permanent capital and total surplus ratios and 3.50 percent for the core surplus ratio.

NOTE: Shareholder investment in the Association could be affected by the financial condition and results of operations of AgFirst Farm Credit Bank. Copies of AgFirst's annual and quarterly reports are available upon request free of charge by calling 1-800-845-1745, ext. 378, or writing Jay Wise, AgFirst Farm Credit Bank, P.O. Box 1499, Columbia, SC 29202. Information concerning AgFirst Farm Credit Bank can also be obtained at their website, www.agfirst.com. Copies of the Association's annual and quarterly reports are also available upon request free of charge by calling 1-800-999-5341 or writing Mary S. Miller, Vice President and CFO, Valley Farm Credit, ACA, P.O. Box 2700, Winchester, Virginia 22604, or accessing the website, www.valleyfc.com. The Association prepares a quarterly report within 45 days after the end of each fiscal quarter, except that no report need be prepared for the fiscal quarter that coincides with the end of the fiscal year of the institution.

Notes to the Consolidated Financial Statements

(dollars in thousands, except as noted)
(unaudited)

NOTE 1 – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

A description of the organization and operations of Valley Farm Credit, ACA (the Association), the significant accounting policies followed, and the financial condition and results of operations as of and for the year ended December 31, 2004, are contained in the 2004 Annual Report to Shareholders. These unaudited third quarter 2005 consolidated financial statements should be read in conjunction with the 2004 Annual Report to Shareholders.

The accompanying consolidated financial statements contain all adjustments necessary for a fair presentation of the interim financial condition and results of operations and conform with generally accepted accounting principles. The results for the nine months ended September 30, 2005, are not necessarily indicative of the results to be expected for the year ending December 31, 2005.

Certain amounts in prior period consolidated financial statements have been reclassified to conform to current consolidated financial statement presentation. Such reclassifications had no effect on the prior period net income or total capital as previously reported.

The Association maintains an allowance for loan losses in accordance with generally accepted accounting principles. The loan portfolio is reviewed quarterly to determine the adequacy of the allowance for losses. As of September 30, 2005, the allowance for losses is adequate in management's opinion to provide for possible losses on existing loans.

NOTE 2 – ALLOWANCE FOR LOAN LOSSES

An analysis of the allowance for loan losses follows:

Balance at 12-31-03	\$ 2,826
(Reversal of) provision for loan losses	—
Recoveries, net of loans charged off	<u>1</u>
Balance at 9-30-04	<u>\$ 2,827</u>
Balance at 12-31-04	\$ 828
(Reversal of) provision for loan losses	—
Recoveries, net of loans charged off	<u>—</u>
Balance at 9-30-05	<u>\$ 828</u>

As discussed in the 2004 Annual Report, the Association recorded a loan loss reversal of \$2,000 in the fourth quarter of 2004 that resulted in a decrease in the allowance for loan losses.

NOTE 3 – EMPLOYEE BENEFIT PLANS

The Association participates in a Districtwide defined benefit retirement plan. The costs of the plan are not segregated by participating entities but are allocated among the participating entities. Pension costs are allocated by multiplying the District's net pension expense times each institution's salary expense as a percentage of the District's salary expense. The Association also participates in Districtwide Thrift and other postretirement benefit plans.

The following is a table of retirement and postretirement benefit expense for the nine months ended September 30, 2005:

	For the nine months ended September 30,	
	2005	2004
Pension	\$ 298	\$ 351
Thrift/deferred compensation	101	89
Other postretirement benefits	<u>132</u>	<u>142</u>
Total	<u>\$ 531</u>	<u>\$ 582</u>

The Association had not previously anticipated making a contribution in 2005 to the defined benefit retirement plan based upon actuarial projections as of the last plan measurement date (September 30, 2004). However, due to market conditions affecting discount rates and return on plan assets, current actuarial projections indicated that a contribution was needed to meet the expected accumulated benefit obligation at September 30, 2005. During the third quarter of 2005, the Association contributed \$610 to the defined benefit retirement plan. The Association does not anticipate making additional contributions for the remainder of 2005.
