Report on Internal Control Over Financial Reporting

The Association's principal executives and principal financial officers, or persons performing similar functions, are responsible for establishing and maintaining adequate internal control over financial reporting for the Association's Consolidated Financial Statements. For purposes of this report, "internal control over financial reporting" is defined as a process designed by, or under the supervision of the Association's principal executives and principal financial officers, or persons performing similar functions, and effected by its Board of Directors, management and other personnel. This process provides reasonable assurance regarding the reliability of financial reporting information and the preparation of the Consolidated Financial Statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

Internal control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Association, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial information in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures are being made only in accordance with authorizations of management and directors of the Association, and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Association's assets that could have a material effect on its Consolidated Financial Statements.

The Association's management has completed an assessment of the effectiveness of internal control over financial reporting as of March 31, 2016. In making the assessment, management used the framework in *Internal Control — Integrated Framework (2013)*, promulgated by the Committee of Sponsoring Organizations of the Treadway Commission, commonly referred to as the "COSO" criteria.

Based on the assessment performed, the Association's management concluded that as of March 31, 2016, the internal control over financial reporting was effective based upon the COSO criteria. Additionally, based on this assessment, the Association's management determined that there were no material weaknesses in the internal control over financial reporting as of March 31, 2016.

Management's Discussion and Analysis of Financial Condition and Results of Operations

(dollars in thousands)

The following commentary reviews the financial condition and results of operations of MidAtlantic Farm Credit, ACA (Association) for the period ended March 31, 2016. The comments contained in this report should be read in conjunction with the accompanying consolidated financial statements, notes to the consolidated financial statements and the 2015 Annual Report of the Association. The accompanying consolidated financial statements were prepared under the oversight of the Audit Committee of the Board of Directors.

LOAN PORTFOLIO

The Association provides funds to farmers, rural homeowners and farm-related businesses for the financing of short- and intermediate-term loans and long-term real estate mortgage loans. The Association's loan portfolio encompasses a well-diversified range of agricultural commodities, with cash grains, poultry and dairy representing the largest segments. In addition, the Association provides a significant amount of loans to lessors of agricultural real estate. Farm size varies and many of the borrowers in the region have diversified farming operations. This factor, along with the opportunities for non-farm income, impacts the level of dependency on any particular commodity.

Gross loans at March 31, 2016 totaled $2,461,679 compared to $2,456,577 at December 31, 2015, increasing $5,101 (0.21 percent) during the first three months. The Association's allowance for loan losses of $24,754 decreased $26 (0.10 percent) during the first three months of 2016 resulting in net loans (gross loans less allowance for loan losses) of $2,436,925 and $2,431,797 at March 31, 2016 and December 31, 2015, respectively. Nonaccrual loans decreased $1,870 (7.51 percent) from $24,893 at December 31, 2015 to $23,023 at March 31, 2016 resulting in a decrease in the ratio of nonaccrual loans to total loans from 1.01 percent to 0.94 percent. In addition, Other property owned increased from $290 at December 31, 2015 (one property) to $1,103 at March 31, 2016 (two properties).

There is an inherent risk in the extension of any type of credit and, accordingly, the Association maintains an allowance for loan losses consistent with the risk measured in the portfolio. Credit administration remains satisfactory and the overall credit quality of the Association's loan portfolio has remained acceptable. The allowance for loan losses represented 1.01 percent and 1.01 percent of total loans, and 107.52 percent and 99.55 percent of Nonaccrual loans, at March 31, 2016 and December 31, 2015, respectively. See also Note 2 of "Notes to the Consolidated Financial Statements".

RESULTS OF OPERATIONS

For the three months ended March 31, 2016

Net income for the three months ended March 31, 2016 totaled $10,176, a decrease of $618 (5.73 percent) compared to the three months ended March 31, 2015. Major changes in the components of net income are identified as follows:

- Net interest income decreased $324 (1.95 percent) for the quarter ended March 31, 2016 compared to the same period in 2015. The decrease in net interest income is primarily attributable to (a) a $245 increase in the Association's earnings credit due to an increase in the Association's equity and a 4.41 percent increase in the interest credit rate, (b) a $922 increase due to a $246 million increase in the average daily balance of accruing portfolio volume, offset by (c) a $546 decrease in net interest recognized attributable to nonaccruing loans, and (d) a $962 decrease in the Association's portfolio margin primarily resulting from increased competition.

- The risks identified in the Association's loan portfolio did not require a provision for loan losses to be recorded in the first quarter of 2016. There was a recovery for loan losses of $567 recorded in the first quarter of 2015. The Association's Nonaccrual loans decreased from 1.01 percent at December 31, 2015 to 0.94 percent of the portfolio at March 31, 2016 and decreased from 1.12 percent at March 31, 2015. See also Note 2 of "Notes to the Consolidated Financial Statements".

- At March 31, 2016 and 2015, "Patronage refunds from other Farm Credit institutions" on the Consolidated Statements of Income of $3,795 and $3,506, respectively, includes accruals based on first quarter operations only; management anticipates additional income for the remaining quarters in 2016.

Since this income from AgFirst Farm Credit Bank (the Bank) is reasonably estimable and because there is a history of these earnings, management is of the opinion that including this income in quarterly operations provides shareholders with a more accurate forecast of annualized net income. The increase in the accrual in 2016 is due to the impact of an increase in loan volume.

- Noninterest income increase in the first quarter of $751 (19.06 percent) included (a) a $289 increase in Patronage related income, (b) an increase of $259 from loan fees, (c) an increase of $90 from fees for financially related services, and (d) a $5 increase in Other Noninterest income, offset by (e) a $459 decrease in Losses on other transactions, and (f) a decrease of $349 in Net gains on sales of rural home loans.

- Noninterest expense for the first quarter of 2016 was $10,658 as compared to $10,079 for the first quarter of 2015 or an increase of $579 (5.74 percent). The increase of $140 (1.95 percent) for Salaries and benefits is primarily comprised of routine annual salary and benefit increases. See also Note 3 of "Notes to the Consolidated Financial Statements".

  Insurance fund premium expense increased $184 (33.64 percent) due to (a) the increase in the Farm Credit System Insurance Corporation (FCSIC) premium from 0.13 percent of loans outstanding in 2015 to 0.16 percent for the first half of 2016 and is expected to increase to 0.18 percent for the second half of 2016, and (b) the increase in volume during the past twelve months.

  Occupancy and equipment and Other operating expenses decreased $77 (3.26 percent) from $2,362 to $2,285. The decreases were primarily related to purchased services, training, data processing, furniture and equipment, and other expenses offset by an increase in director's expenses, travel, communications, and advertising.

  The $332 increase in Losses on other property related to a write-down of a property which was purchased during the quarter.

- The Association recorded a Provision for income taxes of $165 and $266, respectively, for the first quarters of 2016 and 2015.

FUNDING SOURCES

The principal source of funds for the Association is the borrowing relationship established with the Bank through a General Financing Agreement. The General Financing Agreement utilizes the Association's credit and fiscal performance as criteria for establishing a line of credit on which the Association may draw funds. The Bank advances the funds to the Association in the form of notes payable. The notes payable are segmented into variable rate and fixed rate sectors. The Association utilizes the variable rate note to fund variable rate loan advances and operating funds requirements. The fixed rate note is used specifically to fund fixed rate loan advances made by the Association. The total Notes payable to the Bank at March 31, 2016 was $1,903,829 compared to $1,914,310 at December 31, 2015. This decrease during the period of $10,481 (5.48 percent) corresponds to the receipt of prior year Bank patronage, current year net cash generated from operating activities reduced by the increase in the Association's loan volume and by patronage payments to stockholders.

CAPITAL RESOURCES

Members' equity at March 31, 2016 totaled $546,804, an increase of $7,097 (1.31 percent) compared to total members' equity of $539,707 at December 31, 2015. Total Comprehensive income of $10,248 for the three months ended March 31, 2016 and net member capital stock/participation certificates issued of $95, an estimated cash patronage distribution accrual for the first three months of 2016 totaling $3,000, and net patronage distribution adjustment and retained earnings retired of $246 account for the change.

FCA regulations require that all Farm Credit institutions maintain a minimum permanent capital ratio of 7.0 percent and total surplus and core surplus ratios equal to 3.5 percent. These ratios are calculated by dividing the Association's permanent capital, total surplus and core surplus as defined in FCA regulations, by a risk-adjusted asset base. At March 31, 2016, the Association exceeded the minimum regulatory standard for all of the ratios as permanent capital, total surplus and core surplus ratios equaled 20.36 percent, 20.01 percent and 20.01 percent, respectively.

REGULATORY MATTERS

On March 10, 2016, the FCA adopted a final regulation to modify the regulatory capital requirements for System banks and associations. The stated objectives of the rule are as follows:

- To modernize capital requirements while ensuring that institutions continue to hold sufficient regulatory capital to fulfill their mission as a government-sponsored enterprise.
- To ensure that the System's capital requirements are comparable to the Basel III framework and the standardized approach that the federal banking regulatory agencies have adopted, but also to ensure that the rules recognize the cooperative structure and the organization of the System.

- To make System regulatory capital requirements more transparent.
- To meet the requirements of section 939A of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act).

On November 30, 2015, the FCA, along with four other federal agencies, published in the Federal Register a final rule to establish capital and margin requirements for covered swap entities as required by the Dodd-Frank Act. See below for further information regarding the Dodd-Frank Act.

On July 25, 2014, the FCA published a proposed rule in the Federal Register to revise the requirements governing the eligibility of investments for System banks and associations. The public comment period ended on October 23, 2014. The FCA expects to issue a final regulation in 2016. The stated objectives of the proposed rule are as follows:

- To strengthen the safety and soundness of System banks and associations.
- To ensure that System banks hold sufficient liquidity to continue operations and pay maturing obligations in the event of market disruption.
- To enhance the ability of the System banks to supply credit to agricultural and aquatic producers.
- To comply with the requirements of section 939A of the Dodd-Frank Act.
- To modernize the investment eligibility criteria for System banks.
- To revise the investment regulation for System associations to improve their investment management practices so they are more resilient to risk.

FINANCIAL REGULATORY REFORM

See discussion of the Dodd-Frank Act in the Financial Regulatory Reform section of the Association's 2015 Annual Report.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Please refer to Note 1, *"Organization, Significant Accounting Policies, and Recently Issued Accounting Pronouncements"*, in the Notes to the Financial Statements, and the 2015 Annual Report to Shareholders for recently issued accounting pronouncements.

SHAREHOLDER INVESTMENT

Shareholder investment in the Association is materially affected by the financial condition and results of operations of AgFirst Farm Credit Bank. Copies of AgFirst's annual and quarterly reports are available upon request free of charge by calling 1-800-845-1745, ext. 2832, or writing Susanne Caughman, AgFirst Farm Credit Bank, P.O. Box 1499, Columbia, SC 29202. Information concerning AgFirst Farm Credit Bank can also be obtained at their website, www.agfirst.com. Copies of the Association' annual and quarterly reports are also available upon request free of charge by calling 1-800-333-7950, or writing John E. Wheeler, Jr., Chief Financial Officer, MidAtlantic Farm Credit, ACA, 45 Aileron Court, Westminster, MD 21157-3022, or accessing the website, www.mafc.com. The Association prepares a quarterly report within 40 days after the end of each fiscal quarter, except that no report need be prepared for the fiscal quarter that coincides with the end of the fiscal year of the institution.

WHISTLEBLOWER

Reports of suspected or actual wrongdoing involving the Association, its employees and/or Directors, can be made anonymously and confidentially through the Association's Whistleblower Hotline (Listen Up) at 1-888-789-6627 or www.ListenUpReports.com.

Notes to the Consolidated Financial Statements

(dollars in thousands, except as noted)
(unaudited)

Note 1 — Organization, Significant Accounting Policies, and Recently Issued Accounting Pronouncements

Organization
The accompanying financial statements include the accounts of MidAtlantic Farm Credit, ACA and its Production Credit Association (PCA) and Federal Land Credit Association (FLCA) subsidiaries (collectively, the Association). A description of the organization and operations, the significant accounting policies followed, and the financial condition and results of operations for the Association as of and for the year ended December 31, 2015, are contained in the 2015 Annual Report to Shareholders. These unaudited interim consolidated financial statements should be read in conjunction with the latest Annual Report to Shareholders.

Basis of Presentation
In the opinion of management, the accompanying consolidated financial statements contain all adjustments necessary for a fair statement of results for the periods presented. These adjustments are of a normal recurring nature, unless otherwise disclosed.

Certain amounts in the prior period's consolidated financial statements have been reclassified to conform to the current period presentation. Such reclassifications had no effect on the prior period net income or total capital as previously reported.

The results of any interim period are not necessarily indicative of those to be expected for a full year.

Significant Accounting Policies
The Association's accounting and reporting policies conform with U.S. generally accepted accounting principles (GAAP) and practices in the financial services industry. To prepare the financial statements in conformity with GAAP, management must make estimates based on assumptions about future economic and market conditions (for example, unemployment, market liquidity, real estate prices, etc.) that affect the reported amounts of assets and liabilities at the date of the financial statements, income and expenses during the reporting period, and the related disclosures. Although these estimates contemplate current conditions and expectations of change in the future, it is reasonably possible that actual conditions may be different than anticipated, which could materially affect results of operations and financial condition.

Management has made significant estimates in several areas, including loans and allowance for loan losses (Note 2, *Loans and Allowance for Loan Losses*), investment securities and other-than-temporary impairment (Note 3, *Investments*), and financial instruments (Note 6, *Fair Value Measurement*). Actual results could differ from those estimates.

For further details of significant accounting policies, see Note 2, *Summary of Significant Accounting Policies*, from the latest Annual Report.

Accounting Standards Updates (ASUs) Issued During the Period
The following ASU was issued by the Financial Accounting Standards Board (FASB) since the most recent Annual Report:

- In March, 2016, the FASB issued ASU 2016-07 Investments Equity Method and Joint Ventures (Topic 323): Simplifying the Transition to the Equity Method of Accounting. To simplify the accounting for equity method investments, the amendments in the Update eliminate the requirement that an entity retroactively adopt the equity method of accounting if an investment qualifies for use of the equity method as a result of an increase in the level of ownership or degree of influence. The amendments require that the equity method investor add the cost of acquiring the additional interest in the investee to the current basis of the investor's previously held interest and adopt the equity method of accounting as of the date the investment becomes qualified for equity method accounting. The guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2016. Earlier application is permitted. The amendments should be applied prospectively upon their effective date to increases in the level of ownership interest or degree of influence that result in the adoption of the equity method.

ASUs Pending Effective Date
For a detailed description of the ASUs below, see the latest Annual Report.

Potential effects of ASUs issued in previous periods:

- 2016-02 Leases (Topic 842): In February, 2016, the FASB issued an update that requires organizations that lease assets to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases. The Association is in the process of evaluating what effects the guidance may have on the statements of financial condition and results of operations.

- 2016-01 Financial Instruments – Overall (Subtopic 825-10) Recognition and Measurement of Financial Assets and Financial Liabilities: In January, 2016, the FASB issued an update that is intended to improve the recognition and measurement of financial instruments. The Association is in the process of evaluating what effects the guidance may have on the statements of financial condition and results of operations.

- 2015-14 Revenue from Contracts with Customers (Topic 606) – Deferral of the Effective Date: In August, 2015, the FASB issued an update that defers by one year the effective date of ASU 2014-09, Revenue from Contracts with Customers. The new ASU reflects decisions reached by the FASB at its meeting on July 9, 2015. The Association is in the process of evaluating what effects the guidance may have on the statements of financial condition and results of operations.

Accounting Standards Effective During the Period
There were no changes in the accounting principles applied from the latest Annual Report, other than any discussed below.

No recently adopted accounting guidance issued by the FASB had a significant effect on the current period reporting. See the most recent Annual Report for a detailed description of each of the standards below:

- 2015-07 Fair Value Measurement (Topic 820): Disclosure for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) – The amendment was adopted prospectively. There were no changes to the Association's statements of financial condition or results of operations as a result of this guidance. See Note 6, *Fair Value Measurement*, for the disclosures required by this guidance.

- 2015-01 Income Statement – Extraordinary and Unusual Items (Subtopic 225-20): Simplifying Income Statement Presentation by Eliminating the Concept of Extraordinary Items – The amendment was adopted retrospectively. There were no changes to the Association's statements of financial condition or results of operations as a result of this guidance.

- 2014-15 Income Statement – Presentation of Financial Statements – Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern: This amendment is effective for the annual reporting period ended December 31, 2016 and, interim and annual periods thereafter. It may require additional disclosures but will not have a material impact on the Association's financial condition or results of operations.

Note 2 — Loans and Allowance for Loan Losses

The Association maintains an allowance for loan losses at a level considered adequate by management to provide for probable and estimable losses inherent in the loan portfolio as of the report date. The allowance for loan losses is increased through provisions for loan losses and loan recoveries and is decreased through loan charge-offs and allowance reversals. A review of individual loans in each respective portfolio is performed periodically to determine the appropriateness of risk ratings and to ensure loss exposure to the Association has been identified. See Note 3, *Loans and Allowance for Loan Losses*, from the latest Annual Report for further discussion.

Credit risk arises from the potential inability of an obligor to meet its repayment obligation. The Association manages credit risk associated with lending activities through an assessment of the credit risk profile of an individual obligor. The Association sets its own underwriting standards and lending policies that provide direction to loan officers and are approved by the board of directors.

A summary of loans outstanding at period end follows:

	March 31, 2016	December 31, 2015
Real estate mortgage	$ 1,497,757	$ 1,474,701
Production and intermediate-term	748,133	766,286
Loans to cooperatives	7,170	1,133
Processing and marketing	54,162	61,888
Farm-related business	66,674	63,415
Communication	53,966	54,479
Energy and water/waste disposal	3,210	3,603
Rural residential real estate	30,607	31,072
Total Loans	$ 2,461,679	$ 2,456,577

A substantial portion of the Association's lending activities is collateralized, and exposure to credit loss associated with lending activities is reduced accordingly.

The Association may purchase or sell participation interests with other parties in order to diversify risk, manage loan volume, and comply with Farm Credit Administration (FCA) regulations. The following tables present the principal balance of participation loans at periods ended:

March 31, 2016	Within AgFirst District		Within Farm Credit System		Outside Farm Credit System		Total	
	Participations Purchased	Participations Sold	Participations Purchased	Participations Sold	Participations Purchased	Participations Sold	Participations Purchased	Participations Sold
Real estate mortgage	$ 12,409	$ –	$ –	$ –	$ –	$ –	$ 12,409	$ –

There were no material commitments to lend additional funds to debtors whose loans were classified as impaired at each reporting period.

A summary of changes in the allowance for loan losses and recorded investment in loans for each reporting period follows. Prior to issuance of the Association's 2015 Annual Report, management identified errors in classification of the loan portfolio among the various FCA loan type categories that are used to report disaggregated loan information in footnote disclosures. As discussed in Note 3, Loans and Allowance for Loan Losses, of the Bank's 2015 Annual Report, FCA loan type classifications prior to December 31, 2015 have been revised as necessary to reflect these loan type classifications, as adjusted. In the table below, activity for the quarter ended March 31, 2015 is presented as revised.

	Real Estate Mortgage	Production and Intermediate-term	Agribusiness*	Communication	Energy and Water/Waste Disposal	Rural Residential Real Estate	Total
Activity related to the allowance for credit losses:							
Balance at December 31, 2015	$ 9,959	$ 13,512	$ 540	$ 213	$ 11	$ 545	$ 24,780

**Includes the loan types: Loans to cooperatives, Processing and marketing, and Farm-related business.*

A restructuring of a debt constitutes a troubled debt restructuring (TDR) if the creditor for economic or legal reasons related to the debtor's financial difficulties grants a concession to the debtor that it would not otherwise consider. The following tables present additional information about pre-modification and post-modification outstanding recorded investment and the effects of the modifications that occurred during the periods presented.

	Three months ended March 31, 2016				
Outstanding Recorded Investment	**Interest Concessions**	**Principal Concessions**	**Other Concessions**	**Total**	**Charge-offs**
Pre-modification:					
Production and intermediate-term	$ –	$ 3,960	$ –	$ 3,960	
Total	$ –	$ 3,960	$ –	$ 3,960	
Post-modification:					
Production and intermediate-term	$ –	$ 3,961	$ –	$ 3,961	$ –
Total	$ –	$ 3,961	$ –	$ 3,961	$ –

	Three months ended March 31, 2015				
Outstanding Recorded Investment	**Interest Concessions**	**Principal Concessions**	**Other Concessions**	**Total**	**Charge-offs**
Pre-modification:					
Real estate mortgage	$ 164	$ 333	$ –	$ 497	
Production and intermediate-term	–	1,921	–	1,921	
Total	$ 164	$ 2,254	$ –	$ 2,418	
Post-modification:					
Real estate mortgage	$ 150	$ 333	$ –	$ 483	$ –
Production and intermediate-term	–	1,948	–	1,948	–
Total	$ 150	$ 2,281	$ –	$ 2,431	$ –

Interest concessions may include interest forgiveness and interest deferment. Principal concessions may include principal forgiveness, principal deferment, and maturity extension. Other concessions may include additional compensation received which might be in the form of cash or other assets.

The following table presents outstanding recorded investment for TDRs that occurred during the previous twelve months and for which there was a subsequent payment default during the period. Payment default is defined as a payment that was thirty days or more past due.

	Three Months Ended March 31,	
	2016	**2015**
Defaulted troubled debt restructurings:		
Production and intermediate-term	$ 77	$ 25
Rural residential real estate	–	44
Total	$ 77	$ 69

The following table provides information on outstanding loans restructured in troubled debt restructurings at period end. These loans are included as impaired loans in the impaired loan table.

	Total TDRs		Nonaccrual TDRs	
	March 31, 2016	**December 31, 2015**	**March 31, 2016**	**December 31, 2015**
Real estate mortgage	$ 11,598	$ 11,783	$ 2,304	$ 2,320
Production and intermediate-term	11,691	11,299	4,490	5,656
Rural residential real estate	867	927	173	42
Total Loans	$ 24,156	$ 24,009	$ 6,967	$ 8,018
Additional commitments to lend	$ 133	$ 192		

The following table presents information as of period end:

	March 31, 2016	**December 31, 2015**
Carrying amount of foreclosed residential real estate properties held as a result of obtaining physical possession	$ 1,103	$ 290
Recorded investment of consumer mortgage loans secured by residential real estate for which formal foreclosure proceedings are in process	$ –	$ 72

Note 3 — Investments

Investments in other Farm Credit Institutions

The Association is required to maintain ownership in AgFirst Farm Credit Bank (AgFirst or the Bank) of Class B and Class C stock as determined by the Bank. The Bank may require additional capital contributions to maintain its capital requirements. The Association owned 9.63 percent of the issued stock of the Bank as of March 31, 2016 net of any reciprocal investment. As of that date, the Bank's assets totaled $31.0 billion and shareholders' equity totaled $2.3 billion. The Bank's earnings were $72 million for the first three months of 2016. In addition, the Association had an investment of $2,554 related to other Farm Credit institutions.

Note 4 — Debt

Notes Payable to AgFirst Farm Credit Bank

The Association's indebtedness to the Bank represents borrowings by the Association to fund its earning assets. This indebtedness is collateralized by a pledge of substantially all of the Association's assets. The contractual terms of the revolving line of credit are contained in the General Financing Agreement (GFA). The GFA also defines Association performance criteria for borrowing from the Bank, which includes borrowing base margin, earnings and capital covenants, among others.

Note 5 — Members' Equity

Accumulated Other Comprehensive Income (AOCI)

Changes in Accumulated Other Comprehensive income by Component *(a)*

	For the Three Months Ended March 31, 2016	2015
Employee Benefit Plans:		
Balance at beginning of period	$ (511)	$ (534)
Other comprehensive income before reclassifications	–	–
Amounts reclassified from AOCI	72	32
Net current period other comprehensive income	72	32
Balance at end of period	$ (439)	$ (502)

Reclassifications Out of Accumulated Other Comprehensive Income *(b)*

	For the Three Months Ended March 31, 2016	2015	Income Statement Line Item
Defined Benefit Pension Plans:			
Periodic pension costs	$ (72)	$ (32)	See Note 7.
Net amounts reclassified	$ (72)	$ (32)	

(a) Amounts in parentheses indicate debits to AOCI.
(b) Amounts in parentheses indicate debits to profit/loss.

Note 6 — Fair Value Measurement

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants in the principal or most advantageous market for the asset or liability.

Accounting guidance establishes a hierarchy for disclosure of fair value measurements to maximize the use of observable inputs, that is, inputs that reflect the assumptions market participants would use in pricing an asset or liability based on market data obtained from sources independent of the reporting entity. The hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the hierarchy tiers is based upon the lowest level of input that is significant to the fair value measurement.

The classifications within the fair value hierarchy are as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 inputs include quoted prices for similar assets and liabilities in active markets; quoted prices in markets that are not active; and inputs that are observable, or can be corroborated, for substantially the full term of the asset or liability.

Level 3 inputs are unobservable and supported by little or no market activity. Valuation is determined using pricing models, discounted cash flow methodologies, or similar techniques, and could include significant management judgment or estimation. Level 3 assets and liabilities also could include instruments whose price has been adjusted based on dealer quoted pricing that is different than the third-party valuation or internal model pricing.

For a complete discussion of the inputs and other assumptions considered in assigning various assets and liabilities to the fair value hierarchy levels, see the latest Annual Report to Shareholders.

There were no Level 3 assets or liabilities measured at fair value on a recurring basis for the periods presented. The Association had no transfers of assets or liabilities into or out of Level 1 or Level 2 during the periods presented.

Fair values are estimated at each period end date for assets and liabilities measured at fair value on a recurring basis. Fair values are estimated at least annually, or when information suggests a significant change in value, for assets measured at fair value on a nonrecurring basis. Other Financial Instruments are not measured at fair value in the statement of financial position, but their fair values are estimated as of each period end date. The following tables summarize the carrying amounts of these assets and liabilities at period end, and their related fair values.

	At or for the Three Months Ended March 31, 2016					
	Total Carrying Amount	Level 1	Level 2	Level 3	Total Fair Value	Fair Value Effects On Earnings
Recurring Measurements						
Assets:						
Assets held in Trust funds	$ 1,784	$ 1,784	$ –	$ –	$ 1,784

SENSITIVITY TO CHANGES IN SIGNIFICANT UNOBSERVABLE INPUTS

Discounted cash flow or similar modeling techniques are generally used to determine the recurring fair value measurements for Level 3 assets and liabilities. Use of these techniques requires determination of relevant inputs and assumptions, some of which represent significant unobservable inputs as indicated in the tables that follow. Accordingly, changes in these unobservable inputs may have a significant impact on fair value.

Certain of these unobservable inputs will (in isolation) have a directionally consistent impact on the fair value of the instrument for a given change in that input. Alternatively, the fair value of the instrument may move in an opposite direction for a given change in another input. Where multiple inputs are used within the valuation technique of an asset or liability, a change in one input in a certain direction may be offset by an opposite change in another input having a potentially muted impact to the overall fair value of that particular instrument. Additionally, a change in one unobservable input may result in a change to another unobservable input (that is, changes in certain inputs are interrelated with one another), which may counteract or magnify the fair value impact.

Inputs to Valuation Techniques

Management determines the Association's valuation policies and procedures. The Bank performs the majority of the Association's valuations, and its valuation processes are calibrated annually by an independent consultant. The fair value measurements are analyzed on a quarterly basis. For other valuations, documentation is obtained for third party information, such as pricing, and periodically evaluated alongside internal information and pricing that is available.

Quoted market prices are generally not available for the instruments presented below. Accordingly fair values are based on judgments regarding anticipated cash flows, future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates involve uncertainties and matters of judgment, and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Quantitative Information about Recurring and Nonrecurring Level 3 Fair Value Measurements at March 31, 2016

	Fair Value	Valuation Technique(s)	Unobservable Input	Range
Impaired loans and other property owned	$ 38,195	Appraisal	Income and expense	*
			Comparable sales	*
			Replacement cost	*
			Comparability adjustments	*

** Ranges for this type of input are not useful because each collateral property is unique.*

Information about Other Financial Instrument Fair Value Measurements

	Valuation Technique(s)	Input
Cash	Carrying Value	Par/Principal and appropriate interest yield
Loans	Discounted cash flow	Prepayment forecasts
		Probability of default
		Loss severity
Notes payable to AgFirst Farm Credit Bank	Discounted cash flow	Prepayment forecasts
		Probability of default
		Loss severity

Note 7 — Employee Benefit Plans

The following is a table of retirement and other postretirement benefit expenses for the Association:

	For the three months ended March 31, 2016	2015
Pension	$ 1,561	$ 1,510
401(k)	277	217
Other postretirement benefits	304	401
Total	$ 2,142	$ 2,128

The following is a table of retirement and other postretirement benefit contributions for the Association:

	Actual YTD Through 3/31/16	Projected Contributions For Remainder of 2016	Projected Total Contributions 2016
Pension	$ 3	$ 3,294	$ 3,297
Other postretirement benefits	124	390	514
Total	$ 127	$ 3,684	$ 3,811

Contributions in the above table include allocated estimates of funding for multi-employer plans in which the Association participates. These amounts may change when a total funding amount and allocation is determined by the respective Plan's Sponsor Committee. Also, market conditions could impact discount rates and return on plan assets which could change contributions necessary before the next plan measurement date of December 31, 2016.

Further details regarding employee benefit plans are contained in the 2015 Annual Report to Shareholders, including a discussion of benefit plan changes related to the termination of the AgFirst Farm Credit Cash Balance Retirement Plan.

Note 8 — Commitments and Contingent Liabilities

From time to time, legal actions are pending against the Association in which claims for money damages are asserted. On at least a quarterly basis, the Association assesses its liabilities and contingencies in connection with outstanding legal proceedings utilizing the latest information available. While the outcome of legal proceedings is inherently uncertain, on the basis of information presently available, management, after consultation with legal counsel, is of the opinion that the ultimate liability, if any, from these actions, would not be material in relation to the financial position of the Association. Because it is not probable that the Association will incur a loss or the loss is not estimable, no liability has been recorded for any claims that may be pending.

Note 9 — Subsequent Events

The Association evaluated subsequent events and determined there were none requiring disclosure through May 9, 2016, which was the date the financial statements were issued.
